

Message from Chairman

Professor Dr. Masayuki NAGAO, Toyohashi University of Technology

Dear Friends!

EINA Magazine No.23 has come out for you Friends. You may look at this newest issue in this Website <http://eina.ws>.

EINA magazine has been published in printed paper form up to the No.21 issue, but from the last issue we decided to publish the magazine mainly in electronic PDF form to reduce the printing and mailing costs. Before this decision we collected the reader's opinions and the majority was positive. As the chair of EINA magazine committee I would like to ask you sincerely to accept our decision. If you feel some inconvenience in the electronic style, please don't hesitate to request us to send the ordinary type EINA magazine. We still continue to print the ordinary type ones for the distribution in the international conferences to advertise our magazine.

EINA Magazine Committee of IEE of Japan is aiming at interactive communication among R&D people in the field of electrical insulation and high voltage engineering especially in the Asia-Pacific region. We value this activity, because we feel that it would be crucial to build up an interactive channel to promote R&D in this expertise. If you have items for announcement, why don't you take due advantage of this medium to communicate with your potential friends? Contact eina@eina.ws.

I sincerely hope you will join in our EINA activities.

Thank you.

長尾雅行

Prof. Dr. Masayuki NAGAO
