

All those who attended the 5th ICPADM did have an unforgettable memory of the Korea and of the Sheraton Walker Hill Convention Center, one of the best grade hotels and convention facilities of Seoul, Korea.

Table 1 Technical session topics and the number of applied papers

No	Technical Session Topics	No. of papers (Korea)
1	Dielectric Phenomena and Applications	16 (1)
2	Conduction and Breakdown in Solids, Liquids and Gases	20 (10)
3	Partial Discharge, Aging, Residual Life, Diagnostic and Monitoring Technology and Expert Systems	39 (6)
4	Surface and Interfacial Phenomena	13 (8)
5	Cable Diagnostics, Electrical and Water Treeing	19 (5)
6	Electrical Insulation in Apparatus and System, and High Voltage Systems	17 (4)
7	New Materials, Functional Materials, Thin Films, Conductive Polymer, and Active Dielectric Devices	54 (42)
8	Electrical Insulation in Specific or Synergistic Environments	1 (0)
9	Outdoor Insulation	18 (1)
10	Charge Dynamics and Transport	8 (3)
11	Conduction and Breakdown in Ceramics and Composite	24 (14)
12	Dielectrics	8 (14)
13	Insulating and Dielectric Materials in Electronics	13 (7)
14	Properties and Application of Ferroelectric Materials	13 (12)
15	Sensors and Actuators	20 (6)
	Measurements and Testing Techniques	

By Dr. T. Tokoro ( Gifu National College of Technology )
